Today's globally competitive business environment demands managers and leaders who have the necessary skills to succeed in a constantly changing world. Thomas College offers a variety of programs in management, each designed to help prepare the student for an exciting and challenging career. Through required courses, management students receive a broad orientation in the areas common to the management of any organization. Concentration courses allow the student to develop a more specialized focus in such fields. The general management program, through electives, provides the student with the opportunity to complete the B.S. degree with a course of study tailored to individual interests.

Our two-year **Associate in Science in Business** major is designed to provide you with a foundation in general business principles.

If your dream is to one day own your own business or assume significant levels of responsibility in an existing small business, the **Bachelor of Science in Entrepreneurship/Small Business Management** major at Thomas College might be the right choice for you. You may already possess the personality traits and characteristics that are typical of the entrepreneur — dependability, creativity, flexibility, ingenuity, and determination. We can help you combine those important factors with study in areas such as management, accounting, marketing, finance, and information technology. The entrepreneurship program is centered around the development of a business plan, which may be used to start a small business venture and secure financial backing.

At Thomas College our **Bachelor of Science in Human Resource Management** degree covers the important tasks of human resource management: attracting, motivating, developing, and maintaining an effective workforce.

With today's global economy, successful businesses must expand into international markets to remain at the top of their industry. Thomas College's **Bachelor of Science in International Business** major is designed to provide students a management degree with a global outlook. Graduates of this program will have a foundation in the fundamentals of business complemented by a working knowledge of international business practices. Additionally, Thomas has international study abroad opportunities for you to learn first-hand about international business environments.
