

## PROGRAM OF STUDY IN PSYCHOLOGY

### *Bachelor of Arts in Psychology*

The **Bachelor of Arts in Psychology** program at Thomas College is designed to help students learn about human behavior within a variety of contexts. The program is an overview of the many theoretical constructs of how our minds work and the various influences on human personality, behavior and interaction. Not a clinical program, this course of study allows students to declare a minor to understand the application of psychology to a specific field of interest. Students are also required to complete an internship. Those considering careers as licensed counselors or certified guidance counselors should be aware that further graduate-level study will be required to pursue those types of positions.

### BACHELOR OF ARTS IN PSYCHOLOGY

**TOTAL REQUIRED CREDITS:** 120

**REQUIRED ARTS AND SCIENCES COURSES:** (42 Credits)
