MASTER OF BUSINESS ADMINISTRATION Cybersecurity

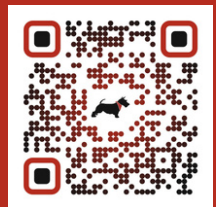

Online

The Master of Business Administration with a concentration in Cybersecurity enables students with an interest in cybersecurity to gain an understanding of the value generated by technology, the need to defend those values and protect individuals, businesses, not-for-profits, and government agencies. Students will learn theory and practice of Cybersecurity, while also addressing ethics, privacy, cultural aspects, organizations, the law, and global considerations.

13%

of people nationwide
have a master's degree.
