

# Commuter Student Experience

Hi! My name is Scarlett Raymond-Ayer. I'm a business administration major and I'm from Manchester Maine.

I chose Thomas for the smaller School feel and the community of athletes that support each other.

Thomas stood out to me because of the close-knit community and later on I made friends through the women's lacrosse team.

My biggest resource as a commuter has been Trio, but everyone in the Thomas Community is always here to help.

The three words I would use to describe Thomas are: vibrant, supportive, and Terriers.

I think the best way to manage your time as a commuter is to find a good study spot on campus and get your homework and assignments done here on campus.

My favorite time of year at Thomas is definitely the fall, because campus looks so beautiful and everyone's excited about getting back to school and back on campus.

The best place to relax on campus would definitely be the couches in the AD building.

My favorite activity off campus is dining at the Proper Pig. Their food is so good.

My favorite Professor here on campus is Professor Rick Saucier because he actively engages with his classroom.

My words of advice for incoming students are always say yes to new experiences and take advantage of the opportunities that Thomas provides you.
