

Criminal Justice at Thomas College

[Music]

So, what I think is special about Thomas College in the criminal justice program is you can get your degree in three or four years and it's a meaningful degree. It's meaningful.

And, whatever you're passionate about, if it's protecting the community and law enforcement, nature as a game warden, uncovering financial crimes in banks or businesses, or guiding individuals as a case manager, doesn't really matter. You can do you. You'll gather all those knowledge skills and real-world experiences to succeed in life.

We have dedicated faculty in each one of the areas and Thomas equips you to make an impact in diverse career paths, contribute to safety, justice, and a positive change in the world.
