Education Community at Thomas College

[Music]

Teaching is an excellent field to go into right now. There is a lot of need, not only in Maine, but across the country. So, if you are a well-prepared teacher who comes through a great program like at Thomas College, you're going to really be able to find a job quickly and easily in the field.

I've been a teacher for 25 years in different fields, in public education, private education, and at the higher education level and I am really passionate about helping people who are interested in becoming teachers to get the experience that they need, out in the field as well as in the classroom.

And so, we really work hard at Thomas to get students experiences that really put them in the classroom and thinking about things that they're going to take away from our classes right into their own classrooms.
