

Thomas College Event & Conference Services

[Music]

Thomas College offers more than just event space. We can provide a full campus experience with meeting spaces, dining, lodging, and a welcoming setting all in one location.

We host a wide variety of events from conferences, trainings, camps, meetings, banquets, and community events. We really have the flexibility to support many different types of groups. We work closely with clients through every step of the process, from the initial planning stages to the day of the event. We help coordinate spaces, setup, dining, lodging, and logistics to make the process as smooth as possible.

“Today is one of my very favorite days of the year. We are hosting our JA Titan Challenge for the North here at Thomas College. We decided on Thomas College for a few different reasons. The fact that it’s located in Central Maine is really great for bringing teams from across central Maine to one location, which is what we really needed to do.

And it was the space itself, the space is very conducive to having the open space, having access to a café very close by. The students don’t have a lot of time to move around, necessarily. So, having everything in one location at the Spann Commons is really convenient for us and it’s been very easy and seamless to work with the team.”

[Quote by Jill Jamison, Vice President and C.O.O. of Junior Achievement of Maine]

Thomas College offers a professional and welcoming environment. We have flexible spaces, helpful support, and the convenience of having multiple services all in one place.

We’re able to offer more than a typical venue and we work hard to make each event feel supported and successful.
